

Release 3.1 – Cascading Menus

Cascading Menus

A cascading menu system has been added to the following menu options on the main CM/ECF menu bar:

- Civil,
- Criminal,
- Reports, and
- Utilities.

These menu options have a corresponding down arrow next to the name of the menu option. Place your mouse over the down arrow to see the cascading menu. You have the option of using the cascading menus or continuing to use the existing static menus.
