Subject: ZM fisa - draft 2

See attached. Re your Qs:

1 - Rita is pulling together the foreign power stuff. If we get to the point where we can send this to OIPR, we will add it to this LHM. Don't worry about this part.

2 - We don't need to provide verbatim answers to intvw Qs. I think the way I've set it out here is accurate.

3 - The way Harry set out this info (A's explanation) doesn't make sense. I think the way it reads in my draft is fine.

4 - I inserted the "not" - thanks. Also added words to make it read as per your point of view. As for the rest of this item, everybody will agree this guy is a liar. I don't think the joy ride stuff adds anything to the package.

5 - I added words to cover your point. As for the rest, I don't think it adds to the package.

6 - I used the name and spelling given to me by ALAT Paris. What we have in this paragraph makes an adequate connection to the group as it reads now.

I tried to tighten up the language and make it more concise. There's not necessarily anything wrong with H's LHM - I'm just trying to make an adjustment for our new targeted audience.

Regards - Mike
